

## CREATING YOUR IDEAL BUSINESS & LIFE

The *FutureFocuser* is all about **getting clear about the business and lifestyle** you want to create for yourself.

This is a super important (and fun!) component of Facebook Faucet because as we create your Offer that you'll market with your Facebook Faucet **you are going to be living that offer!** Now, let me explain that just a little bit ... your offer is the group of services and benefits you will offer to your potential clients.

As your clients invest with you and you begin working with them you have to deliver on your offer. That means if you've offered 20 one-on-one sessions per client, you're going to be tied to your phone a lot! If you've offered a pack of 20 graphics – you're going to be creating a lot of graphics!

**And I want you to love everything about the life you're creating as you participate in Facebook Faucet!**

I've created the *FutureFocuser* Worksheet to help you get clear on what you want your business and life to look like so that in our Position-for-Profits Production Lab you can put together an offer you and your clients will love!

So, print out the worksheet, find a quiet spot where you won't be interrupted and just sit and dream for a few minutes about what you want your life to look like before you begin.

Please don't feel guilty about taking this time, **this exercise is as important as anything else we will do together!**
